

Awingu.com

One Workspace. Any Device. Anywhere.

Awingu is a unified workspace that offers a highly secure and audited access to your company files and legacy, web and SaaS applications in a browser-based workspace, accessible via any browser, on any device.

ANY DEVICE

Access the same workspace anywhere, on any device, via any web browser

SECURE

Provide a highly secure and audited access to all your applications and files

SIMPLE

Easy to install, manage and use, both for the user and the administrator

COST-EFFICIENT

Drives cost reduction compared to alternative solutions, and optimizes TCO up to 81%

SIMPLE AND NON-INTRUSIVE ARCHITECTURE

Awingu is non-intrusive and builds on top of your current architecture. It is deployed as a virtual appliance on all common hypervisors and will connect with standard protocols to your existing IT assets (e.g. RDP, WebDAV, LDAP, ...). For end users, everything is available in a browser via Awingu's online workspace. No need to install agents, plug-ins, etc.
